MINUTES

LEGISLATIVE MEETING – JANUARY 20, 2016

The January 20, 2016 Legislative Meeting of the Lower Swatara Township Board of Commissioners was called to order at 7:00 P.M. by President Thomas L. Mehaffie III. President Mehaffie called for the pledge of allegiance and a moment of silence.

Roll call was taken with the following officials in attendance:

- Thomas L. Mehaffie III, President
- Jon G. Wilt, Vice President
- Laddie J. Springer, Assistant Secretary
- Michael J. Davies, Commissioner
- Todd F. Truntz, Commissioner
- Anne Shambaugh, Manager
- Jean R. Arroyo, Secretary
- Peter R. Henninger, Solicitor
- Erin G. Letavic, HRG, Engineer
- Robert S. Greene, Planning and Zoning Coordinator
- Richard D. Brandt, Police Chief
- Daniel L. Wagner, Public Works Director

Residents and visitors in attendance: (PLEASE SEE ATTACHED SIGN-IN SHEET)

PUBLIC COMMENTS:

Jason Wagner, 521 Constitution Drive, explained that he is President of the Lower Swatara Township Athletic Association. The agenda tonight includes the possibility of looking at a piece of land in the Township that could be used for recreational purposes. The Athletic Association has been looking for land for several years. It is basically one softball field short of being able to adequately handle the needs of the amount of kids playing ball, particularly girls' softball. At present time, the Association is using a school district property at the Kunkel Elementary School and also a private field beside the Glad Tidings Church, off of Fulling Mill Road. With development of the FedEx property in this area, there is a huge safety concern with continuing to play at that field. In addition, that field lacks parking. The Athletic Association is hoping that the property the Township is considering for purchase can be used for a field and is here tonight to express its support. Mr. Wagner added that he does not know if this particular

property is suitable for that purpose, but he does know that opportunities are somewhat limited. President Mehaffie asked if this agenda item could be moved up and discussed now. The Board agreed.

Commissioner Davies asked if the Association is looking for one or two fields. Mr. Wagner explained that two fields would be nice, but there is an absolute need for one since the Association is not looking to continue using the private field at Glad Tidings. This will probably force them to use Memorial Field. He added that an application was submitted to the School District to share use of the girls' softball field at the high school. It is doubtful that this will be approved though, since the School District also needs use of the field. Mr. Wagner stated that he would also like to take this opportunity to thank Jean Arroyo for helping with communications with the Township and to Dan Wagner for all the manpower assistance that the Public Works Department has provided.

Vice President Wilt stated that it sounds like the Association is having a hard timing accommodating its needs. He stated that having Township fields, and possibly a spare field or two, would make recreational endeavors easier. Vice President Wilt noted that it would be an asset if this piece of property works out for that purpose. Mr. Wagner agreed, and added that the Athletic Association would be willing to do all it can to help financially, including fund raisers, sponsorships, sweat equity, etc. Vice President Wilt stated that this would be greatly appreciated.

Ms. Letavic explained that as per the Board's direction, in front of it tonight is a proposal from HRG for a scope of work to complete the Shireman Farm Parcel – DCNR C2P2 Acquisition grant application. There are three phases that would need to happen for a complete submittal. Phase 1 is the pre-application meeting, Phase 2 is the appraisal, and Phase 3 is the grant application itself. Upon confirmation, Phase 4 (boundary survey and title report review) and Phase 5 (Phase 1 environmental site assessment) could occur at a later date. If the Board is interested in proceeding, Ms. Letavic recommended authorization to proceed with Phases 1, 2 and 3. She added that HRG is willing to look at this on a time and material basis as opposed to a lump sum rate.

Commissioner Springer asked if this is a 50/50 grant and if there is a set limit. Ms. Letavic confirmed that it is, and she does not believe there is a grant limit. This grant has been available the last several years. She added that if the Township does receive the grant and purchases the land, it does not have to immediately do anything with it. There should be some planning stages involved. In response to a question from Commissioner Davies, Ms. Letavic confirmed that Phases 1 through 3 would be completed prior to committing to buying the land.

Commissioner Truntz noted that in light of the characteristics of the site itself, he is not sure how far the Board will get with the first three phases. Upon eyeballing the property, it appears there is a pretty good grade, and therefore excavation and re-grading will be necessary. In addition, there are high tension power lines running through this property. Commissioner Truntz explained that he does not want to see the Township spend a lot of money only to find out that it does not have enough usable space due to the power line situation, or that it cannot continue because the excavation costs are exorbitant. He added that there is also a stream running through the property which will result in DEP issues. If the Township decides to proceed with this, he expressed hope that it will be alerted early if there are exorbitant costs, early enough that it does not spend money needlessly. Ms. Letavic stated that the title report will provide a lot of this information including the legal encumbrances on the property.

Commissioner Springer stated that at the last Board meeting, he had suggested the Board see what else is available out there. He noted that he does not want to make a hasty decision; he wants to make the right decision. Ms. Shambaugh was kind enough to draft a letter to property owners of large tracts, and this letter is before the Board tonight. Even if the Board does decide to pursue Phases 1 through 3 of this proposal, he suggested it look at other land that may be more suitable.

Vice President Wilt asked confirmation that costs for this will not come out of the general revenue fund. Solicitor Henninger responded that he does believe the Township can use recreation funds since it is land acquisition related. Vice President Wilt agreed with Commissioner Springer that the Township should continue to look at other land. He added, however, that he does not want to lose this possibility either. In light of the April 3 grant application deadline, Vice President Wilt stated that he feels the Board should proceed with this scope.

Ruth Shireman, owner of the parcel, stated that this property can be used for other purposes besides ballfields. She suggested uses such as cross country skiing, sledding, walking and biking trails, nature trails, etc. Schools could even take advantage of it to view wildlife. She remarked that this piece of land has a lot of potential. Commissioner Springer commented that the Township already has a beautiful park – the Greenfield Park – that is rarely utilized. He suggested that the Township needs to do a good job of marketing what it already has. President Mehaffie asked Mrs. Shireman if she has a time frame in mind. Mrs. Shireman explained that she would like to give the Township the first opportunity to purchase the property. However, if the Township decides not to move on it, she does plan to list it for sale.

Commissioner Davies stated that since this is not a total commitment and there is a deadline for the grant application, he can see making a minor expenditure to investigate this while keeping an eye out for other opportunities. Commissioner Springer agreed, but stated that he would still like to send out the letter to owners of large Township parcels to see what else might be available. A motion was made by Commissioner Davies, seconded by Vice President Wilt, to approve HRG's Scope of Work for the Shireman Farm Parcel – DCNR C2P2 Acquisition grant application, Phases 1, 2 and 3, on a time and material basis not to exceed $12,000. The motion was unanimously approved. Ms. Letavic stated that she will schedule the pre-application meeting, start the appraisal process, and obtain a title report to make sure the encumbrances are not something that cannot be handled. An update will be provided in February. Commissioner Davies added that he had been involved in negotiating with PPL on some other municipally-held property used for recreation purposes. He cautioned that while PPL is pretty flexible, it does not usually like to allow fences or structures on the right of way.

APPROVAL OF MINUTES:

A motion was made by Commissioner Springer, seconded by Commissioner Truntz, to approve the Minutes of the December 16, 2015 Legislative Meeting. The motion was unanimously approved.

A motion was made by Vice President Wilt, seconded by Commissioner Springer, to approve the Minutes of the January 4, 2016 Reorganization/Workshop Meeting. The motion was unanimously approved.

APPROVAL OF BILLS:

A motion was made by Commissioner Davies, seconded by Commissioner Truntz, to approve the payment of bills as presented on Warrant No. 2015-12. The motion was unanimously approved.

APPROVAL OF TREASURER'S REPORT:

A motion was made by Vice President Wilt, seconded by Commissioner Springer, to approve the Treasurer's Report for December 2015. The motion was unanimously approved.

APPROVAL OF COMMITTEE/COMMISSION APPOINTMENTS:

A motion was made by Vice President Wilt, seconded by Commissioner Springer, to approve the following committee/commission appointments:

Tim Knoll	Non-Uniform Pension Advisory Board – 2 year term
Jean Arroyo	Non-Uniform Pension Advisory Board – 2 year term
Daniel Wagner	Non-Uniform Pension Advisory Board – 2 year term
Jon Wilt	Non-Uniform Pension Advisory Board – 2 year term
Todd Truntz	Non-Uniform Pension Advisory Board – 2 year term
Tim Knoll	Police Pension Advisory Board -- 2 year term
Daniel Tingle	Police Pension Advisory Board – 2 year term
Ryan Gartland	Police Pension Advisory Board – 2 year term
Laddie Springer	Police Pension Advisory Board – 2 year term
Michael Davies	Police Pension Advisory Board -- 2 year term
Rita Nagy	Community Policing -- 3 year term
Randall Breon	Community Policing – 3 year term
Jason Brown	Community Policing – 3 year term
Chauncey Knopp	Planning Commission – 4 year term
Kimber Latsha	Planning Commission -- 4 year term
Randall Breon	Zoning Hearing – 3 year term
Jason Brown	Code Hearing – 3 year term
Richard Myers	Code Hearing – 3 year term
Virginia Noll	Rec Board – 5 year term
Carl Dupes	Rec Board – 5 year term
James Gingrich	Municipal Authority – 5 year term
Daniel Magaro	Municipal Authority – unexpired term which ends 12/31/16
Chet Hartz	Municipal Authority – unexpired term which ends 12/31/18
Alan Knoche	Fire Prevention Officer – 2 year term
Richard Myers	Assistant Fire Prevention Officer – 2 year term

The motion was unanimously approved.

PRESIDENT'S APPOINTMENTS:

President Mehaffie made the following appointments:

Police Committee Chairman & Vice Chairman	Wilt/Springer
Public Works Committee Chairman & Vice Chairman	Truntz/Davies
Budget & Finance Chairman & Vice Chairman	Davies/Truntz
Public Safety Chairman & Vice Chairman	Springer/Davies
Community Development Chairman & Vice Chairman	Mehaffie /Wilt
Personnel Chairman & Vice Chairman	Wilt/Mehaffie
Building Committee Chairman & Vice Chairman	Truntz/Springer
Commissioner liaison to EMS	Wilt
Commissioner liaison to EMA	Springer
Commissioner liaison to Fire Dept.	Mehaffie
Commissioner liaisons to Olmsted Rec. Board (2)	Springer/Mehaffie
Commissioner liaisons to Middletown School Board (2)	Davies/Truntz
Commissioner liaison to Municipal Authority	Truntz
Commissioner liaison to Dauphin Co. Agency on Aging	Wilt
Commissioner delegate to COG	Anne Shambaugh
Commissioner alternate to COG	Daniel Wagner
Commissioner liaison to MS4/water quality	Mehaffie

ENGINEER'S REPORT:

Erin Letavic, HRG, provided an update on the Capital Improvement Plan and PENNVEST Funding. HRG is coordinating with a PADEP engineer on the eligibility of pavement for the application. A scope of work to continue with the funding application, currently anticipating a May 2016 submittal, will be provided to the Commissioners.

Ms. Letavic stated that she just received the final draft of the truck restriction analyses for North Union Street from PA 283 to PA 441 and Stoner Drive from PA 441 to Rosedale Avenue. It appears that truck restrictions will be recommended for both of these streets, with different gross weights for the vehicle rating. This will be presented to the Board in February

Final contract documents for the Greenfield Well and Irrigation Project continue to be needed from Rogele to close out the contract and recommend final payment. They have been requested, including warranty information and operation and maintenance manuals.

Ms. Letavic updated the Board on the MS4 program (Municipal Separate Storm Sewer System). Approximately 35 municipal employees and consultants attended HRG's presentation for the Capital Region Council of Governments members at the Lower Swatara Township Building on January 12. The topic included anticipated permit changes to be in effect in 2018. Lower Swatara Township will have additional responsibilities regarding reducing the impact to

impaired streams within the Township borders, and the Township will likely need to apply for authorization to discharge under the next General Permit in September 2017. HRG will be reviewing the Township's position regarding the application requirements so that expenses associated with next year's submitted can be planned for. The bottom line is that the regulations continue to change, and possibly become even more stringent, and the Township's preparation for that regarding budgetary and staff time needs will continue to be discussed.

SOLICITOR'S REPORT:

Solicitor Henninger reported that he had sent the Board a proposed sewer user rate ordinance amendment. The Municipal Authority had requested that HRG do a tapping fee rate study last year which resulted in the Authority voting in November to raise the tapping fee from $2600 to $3200. The Authority will be considering a resolution at its next meeting which will put that new fee in effect on February 1. As part of that study, it was determined that an Equivalent Domestic Unit (EDU) is 217 gallons per day. Per the old study, an EDU was 228 gallons per day. The Board must amend its monthly user rate ordinance to insert the 217 number into the calculation of commercial and industrial users. Solicitor Henninger explained that the Municipal Authority sets the tapping fee, and the Board of Commissioners sets the monthly user rate. He noted that this will have no effect on residential rates, and will only impact certain commercial and industrial users. As an example, a commercial user who is outputting 2500 gallons per day under the current calculation is being billed for 11 edus (2500/228 = 10.9 rounded up to 11) or $492.25 per month. Under the new calculation, this user would be billed for 12 EDUs (2500/217 = 11.5 rounded up to 12) or $537.00 per month. A motion to authorize advertisement of this proposed ordinance will appear under the Manager's Report.

Solicitor Henninger requested an executive session immediately upon conclusion of tonight's meeting. He explained that this will be a joint executive session with the Municipal Authority; Authority members Jim Gingrich, Chuck High, and Rich Wilkinson are in attendance tonight. The purpose is to discuss an intermunicipal agreement issue with SARAA.

MANAGER'S REPORT:

Ms. Shambaugh requested Board approval to order the Mid-Mount Boom Mower as outlined within the Township's 2016 approved budget. This piece of equipment will be used by both the Public Works Department and the Municipal Authority. The cost will be split 50/50 between both of those entities at a cost not to exceed $146,000. Ms. Shambaugh added that approval will also be requested from the Authority at its meeting on Monday. A motion was made by Commissioner Davies, seconded by Commissioner Truntz, to approve the ordering of the Mid-Mount Boom Mower as outlined in the 2016 budget. The motion was unanimously approved.

Ms. Shambaugh introduced Lester Lanman, who was recently hired to the position of Assistant Superintendent of Public Works/Municipal Authority Manager. Mr. Lanman started on January 18, and the Township is very happy to welcome him aboard. A motion was made by Commissioner Truntz, seconded by Vice President Wilt, to confirm the hiring of Lester Lanman to the position of Assistant Superintendent of Public Works/Municipal Authority Manager, effective January 18, 2016. The motion was unanimously approved.

Ms. Shambaugh requested Board approval of the Township's revised Personnel Manual for all non-uniformed employees. This policy will be effective upon Board approval. President Mehaffie noted that there are a few questions that still need to be addressed prior to approval. The Board agreed to table this item and take action at the next meeting.

Ms. Shambaugh reported that unfortunately, there were no bids received for the Township's 1983 Chevy 3500 Custom Deluxe Dump Truck. There was a minimum bid of $5,000 set. She requested approval to work with the Public Works Department in looking at other options to sell the truck. President Mehaffie asked if the staff had looked at the blue book value. Mr. Wagner explained that it is difficult to put a number on this older truck, but it is worth $5,000. He added that there were inquires, but no bids submitted. Ms. Shambaugh asked if the Township could put the truck on E-bay in order to reach a broader group. Commissioner Davies added that perhaps it could be included in the next COG surplus sale. President Mehaffie asked Solicitor Henninger the legal requirements of rebidding the truck. Solicitor Henninger noted that the truck may need to be advertised one more time. He will check into this.

A motion was made by Vice President Wilt, seconded by Commissioner Springer, to approve advertisement of an ordinance changing the EDU allowance from 228 gallons to 217 gallons for the calculation of monthly commercial sewer fees. The motion was unanimously approved.

President Mehaffie reviewed the list of future meetings and events. The Municipal Authority meets on January 25. Mr. Greene confirmed that the Planning Commission meeting on January 28 has been cancelled. The Board of Commissioners will hold its next workshop meeting on February 3, and its next legislative meeting on February 17. The Township offices will be closed on February 15 in honor of Presidents' Day.

COMMITTEE REPORTS:

Since the Board committees were just selected tonight, President Mehaffie suggested that the committee reports be tabled this month.

UNFINISHED BUSINESS:

The first item for discussion was the Final Land Development Plan of Residential Retirement Community, Phase 1, File #2007-14, located along Fulling Mill Road at the intersection of Nissley Drive, prepared by Navarro & Wright, Inc. and submitted by Fulling Road LLC. The plan was recommended for approval by the Planning Commission on November 15, 2007 with stipulations. The plan was due to expire on February 20, 2008. 90-day time extensions were granted by the Board on February 20, 2008, May 21, 2008, August 20, 2008, November 19, 2008, February 18, 2009, May 20, 2009, August 19, 2009, November 18, 2009, February 17, 2010, May 19, 2010, August 18, 2010, November 17, 2010, February 16, 2011, May 18, 2011, August 17, 2011, October 19, 2011, January 18, 2012 , April 18, 2012, July 18, 2012, October 17, 2012, January 16, 2013, April 17, 2013, July 17, 2013, October 16, 2013, December 18, 2013, March 19, 2014, June 18, 2014, October 1, 2014, December 17, 2014, March 18, 2015 and July 1, 2015. The Board, at its October 7, 2015 meeting, granted a time extension to January 20, 2016.

Paul Navarro explained that the plan was submitted, and comments were received from the Township engineer, the Municipal Authority engineer, and Mr. Greene. At this point, a conditional approval is being sought. Mr. Navarro explained that comments concerning the

Phase 1 plan include the Penn Dot permit which was resubmitted. Comments were received back on the permit, and he is still working through those with Penn DOT for the HOP. Comments were also received from Authority Engineer Matt Cichy of HRG. There have been some updates to the standards for sewer for the Lower Swatara Municipal Authority, so details of the plan need updated. The upgrade which is necessary to the Lumber Street interceptor should be handled at tomorrow night's meeting of the Highspire Borough, when the permit is anticipated to be signed and submitted. Mr. Navarro explained that he hopes to get the permit approved within the next 60 days, as the intent is to start construction this summer. The remaining issues include some cleaning up of comments from various authorities and working with outside agencies, namely Penn DOT. Rather than have to come back before the Board, Mr. Navarro explained that his is requesting a conditional approval if the Board is prepared to take action this evening.

Ms. Letavic stated that the land development plan itself may change regarding the drainage on Fulling Mill Road because that is another HOP that has not yet been submitted and will be in the Township's name. Regarding the sewer line, she did speak to Mr. Cichy who confirmed the specs changed. There may also be a change in the design itself, including switching some pipe sizes.

Vice President Wilt observed that the plan expires today. Mr. Navarro agreed that if the Board does not grant a conditional approval, he will respectfully request a time extension. Solicitor Henninger stated that the Board can grant a conditional approval if it so desires. However, no HOPs have been issued yet, and one has not even been submitted which involves stormwater and the Township. He agreed that the lack of sewer capacity and the poor economy after 2008 did result in a delay in the plan approval. He added that if there are any changes to what is proposed in pipe size, the Municipal Authority really should have an opportunity to review them.

Mr. Greene reported that his review comments also include the need for financial security agreements to be put in place and DEP planning module approval. In addition, fees in lieu of dedication of recreational land must be collected prior to recording of the plan. Solicitor Henninger stated that posting fees and signing agreements are normal conditions. However, HOPs and sewer issues such as changes in pipe size are issues that are outside of normal conditional approvals.

Commissioner Truntz asked the harm in granting a time extension, other than the fact that Mr. Navarro will need to come back before the Board to report on the plan status. Solicitor Henninger explained there is no harm. Construction cannot begin until the plan is recorded, and the plan cannot be recorded until all these issues are resolved. Commissioner Truntz stated that since some of these are more major conditions, he would be inclined to grant the time extension. President Mehaffie asked if 90 days is sufficient to button up the details. Mr. Navarro responded that it should be. In light of the Board's position that it was not favorable to granting a conditional approval, Mr. Navarro confirmed that he is requesting a time extension until April 20, 2016 and will provide this request in writing. A motion was made by President Mehaffie, seconded by Commissioner Davies, to grant a time extension until April 20, 2016 on the Final Land Development Plan of Residential Retirement Community, Phase 1, File #2007-14. The motion was unanimously approved. Mr. Navarro added that the engineer estimates were pretty high, and asked if the Board would accept the actual bids from the contractors. Ms. Letavic explained that construction bids are not ordinarily accepted. The engineer estimates submitted do include prevailing wage. Ms. Letavic agreed, however, to double check the numbers.

The Board tabled the Final Land Development Plan for Middletown Home Access Driveway/Parking Revisions, prepared by Schlouch, Inc. and submitted by the Middletown Home. The initial Plan submitted was due to expire on May 29, 2013. Time extensions were granted by the Board of Commissioners on May 15, 2013, August 21, 2013, November 20, 2013, February 19, 2014, May 21, 2015, October 15, 2015, January 21, 2015, May 18, 2015, August 19, 2015 and November 18, 2015. The plan is due to expire on February 17, 2016.

The Board tabled the Susquehanna Area Regional Airport Authority (SARAA) sewage planning module for the North 29 Area (land where Sheetz and other commercial properties are planned to be built) requesting that the sewage be sent to SARAA's treatment plant instead of Middletown Borough Authority as would be required according to their location within the sewage area. Lower Swatara Township Authority's agreement with the Middletown Borough Authority reads that sewage in the designated area shall be exclusively treated at Middletown Borough's treatment plan. The Planning Commission approved the planning module, conditioned upon SARAA getting Middletown Borough to agree that the exclusivity can be waived in this instance or upon proof that the exclusivity portion of the agreement does not apply to SARAA because of

established Authority statues. The burden of proof is on SARAA at this point. The planning module was due to expire on January 23, 2014. The Board of Commissioners granted a 90-day time extension on January 15, 2014, April 16, 2014 and July 2, 2014. The Board granted a 120-day time extension on October 1, 2014. The Board granted a 93-day time extension on January 21, 2015 to May 20, 2015. The Board granted a 91-day time extension on May 20, 2015 and again on August 19, 2015. The Board granted a 99-day time extension on November 18, 2015. The plan is due to expire on February 25, 2016.

NEW BUSINESS:

A motion was made by Commissioner Springer, seconded by Commissioner Truntz, to approve the Improvement Guarantee Reduction request No. 1, for Old Reliance Farms, Section 18B, File No. 2010-01, for Sanitary Sewer Improvements in the amount of $61,050.83, which holds a maintenance guarantee in the amount of $10,773.68, or 15% of the original amount of $71,824.50, for a period of 18 months. The motion was unanimously approved.

A motion was made by Commissioner Davies, seconded by Commissioner Springer, to approve the Improvement Guarantee Reduction request from Brian Morgan, for Morgan's Run Subdivision Plan, File No. 2004-13, Lot No. 10, for Sidewalk Construction Improvements in the amount of $987.00. This reduction from the current amount of $61,106.93 will leave a remaining balance in the amount of $60,119.93. The motion was unanimously approved.

FINAL COMMENTS:

Commissioner Springer asked President Mehaffie where the Board is at with the hiring of the new police officer that was allotted in the budget. Commissioner Davies stated that his recollection is that there was one retirement and one vacancy, and the budget includes filling one of the two positions. President Mehaffie asked Ms. Shambaugh if she had a list of candidates. Ms. Shambaugh responded that she did not, but will obtain one from Chief Brandt this week. President Mehaffie requested that Ms. Shambaugh meet with the Police Committee (Vice President Wilt and Commissioner Springer) and Chief Brand to discuss this.

Commissioner Truntz stated that he would like to follow up on President Mehaffie's comments last meeting about some issues before this Board, notably the potential for a police regionalization. He remarked that he gets discouraged about some of the things he is reading and

hearing, and expressed hope that those having concerns will come to these meetings. Commissioner Truntz stressed that he will not vote on anything until he hears from everyone -- the community, the police department, etc. He again welcomed those having concerns to come to the meetings to share them with the Board.

Solicitor Henninger reminded the Board that he is requesting an executive session upon conclusion of the meeting.

President Mehaffie stated that Lower Swatara Township has received a Dauphin County Premiere Project Award for 2015 for the Meade Avenue project. He explained that he came on board at the tail end of the project, and must give credit to the previous Commissioners. This was a joint effort from federal, state, county, municipal and private sectors to take truck traffic away from Penn State.

ADJOURN AND CONVENE INTO EXECUTIVE SESSION:

Hearing no other business, a motion was made by Vice President Wilt, seconded by Commissioner Davies, to adjourn the meeting and convene into executive session. The meeting adjourned at 8:16 P.M.

ATTEST:

Jean R. Arroyo, Township Secretary
