

## MINUTES

### LEGISLATIVE MEETING – AUGUST 17, 2016

The August 17, 2016 Legislative Meeting of the Lower Swatara Township Board of Commissioners was called to order at 7:00 P.M. by President Thomas L. Mehaffie III. President Mehaffie called for the pledge of allegiance and a moment of silence.

Roll call was taken with the following officials in attendance:

- Thomas L. Mehaffie III, President
- Jon G. Wilt, Vice President
- Todd F. Truntz, Commissioner
- Anne Shambaugh, Manager
- Jean R. Arroyo, Secretary
- Peter R. Henninger, Solicitor
- Erin G. Letavic, HRG, Engineer
- Robert S. Greene, Planning & Zoning Coordinator
- Scott A. Young, Officer in Charge

Absent:

- Michael J. Davies, Commissioner
- Laddie J. Springer, Assistant Secretary

Residents and visitors in attendance: (PLEASE SEE ATTACHED SIGN-IN SHEET)

#### PUBLIC COMMENTS:

Attorney Ron Lucas, Stevens & Lee, stated that he is here on behalf of Hillwood Development for informational purposes only. A letter was recently sent to the Planning Commission to inform it that Hillwood is not submitting any application or asking to amend the comprehensive plan since it was not involved in the process. However, it is likely that Hillwood will be coming in within the next year with a proposal to rezone the eastern portion of the Kreider property, which is the area near North Union Street. Attorney Lucas stressed that they just want to make the Board aware of this, and will be at next week's Planning Commission to inform them of the intent. In response to a question from President Mehaffie, Attorney Lucas explained that the area of interest is on the Kreider Farm parcel, primarily the North Union Street area south of Longview Drive, in close proximity to the chicken houses. In response to a question from Solicitor Henninger, Attorney Lucas explained it is the area to the east of the

chicken houses and possibly a small part to the west. It does not include any properties other than that portion of the Kreider property. Attorney Lucas noted that Hillwood has not gotten to the point where it can definitely say what its plans are, as work is still being done with the Kreider Family on this. In response to a question from Commissioner Truntz, Attorney Lucas explained that plans are for a distribution facility which would have truck transportation since there is no rail in that area. The Board thanked Attorney Lucas for the information.

Kimberly Vajda, 5 Greenfield Drive, explained that she is speaking on behalf of 2/3 of the residents on her street, which is right off Oberlin Road and goes back to the soccer fields and the schools. She explained that initially when this was put in, the neighbors were told that it would be chained off and used as an emergency access road only. It was not to be used by buses or parents. This is not the case, and vehicles are speeding. Teachers and parents use this road, and it is a bad turn for school buses. She suggested there is a need for speed humps here, although she was told several years ago that they cannot be installed because students would go airborne. President Mehaffie stated that with the construction work at the new high school almost over, things should improve as far as buses and teachers using the road. If it does not, the Township can speak to the School District about this. Ms. Vajda explained that the construction project is not actually the cause of this. This has been a problem for several years now. President Mehaffie asked OIC Young to see what can be done about the speeding on Greenfield Drive. Ms. Vajda suggested that a police officer sitting on the road will definitely help to slow drivers down, and offered the use of her driveway. Most of the traffic is from 6:15 A.M. to 7:30 A.M., when school lets out, and also during soccer games. President Mehaffie also asked Mr. Greene to look back at the original plan to see if this was intended to be an emergency access only. He requested that Ms. Shambaugh contact the School District about the buses and traffic from the school. He asked that she work with Mr. Greene and OIC Young on this issue, and report back to the neighbors. Commissioner Truntz agreed that he has often gone through this neighborhood and has seen how traffic barrels down that road. He noted that he would not want this in his neighborhood, and assured Ms. Vajda that the Board will follow up on this. President Mehaffie also asked Linda Mehaffie (in attendance), School Board Member, to address this with the School District.

Theresa Fink, 99 Bradford Avenue, stated that the Township owns land at Bradford and Locust Avenues. The grass on this property needs cut; once a month is not enough. Ms. Letavic explained that this is property the Township purchased through the hazard mitigation program. Ms. Fink also reported that the commercial property at 80 Bradford Avenue looks horrible. The owner basically uses it for a dumping ground for his commercial business. There are old boats, trailers, etc. on the property, and the grass is also high. Ms. Fink explained that she is trying to sell her own property, and this is deterring buyers. She added that any rezoning at the top of the Jednota Property will also be problem because it will result in more water flowing down to the lower end. President Mehaffie asked that Mr. Greene and the new Code Enforcement Officer look into the concerns at 80 Bradford Avenue. He added that he will speak to the Superintendent of Public Works about mowing the grass on the Township property.

PRESENTATION BY FIRST CATHOLIC SLOVAK UNION:

Bill Gladstone explained that he is a commercial real estate agent with NAICIR and is here on behalf of the First Catholic Slovak Union, owners of the Jednota tract, regarding a possible rezoning. He explained that unfortunately, no one from the Slovak Union could be here tonight, so he was asked to provide the presentation. He noted they will be at the Planning Commission meeting on August 25.

Representatives from the First Catholic Slovak Union were here in town last month and met with Township staff to discuss a potential rezoning. They were late to the game and did not realize the comprehensive plan update process was coming to a close. Mr. Gladstone distributed a map to the Board, and explained that the parcels that are being considered are parcels 4 and 5. These are bordered on the north by the turnpike, on the east by the connector, and on the south by Rosedale Avenue. This could be a good piece for development. The comp plan does call for that area to be used for commercial or industrial development at some later date. The Slovak Union would like to engage the thought process of the Commissioners tonight as to how they would like to see this come together, and also to see if there are any hot buttons for the Board. The Slovak Union does understand the importance of the airport connector. There is land that abuts the connector, and they are aware that it is important that if this land is developed at a later date, the connector be considered and thoughts be given to the construction of on/off ramps to

make it a more viable site, especially if there are trucks on the road. This, of course, will be a big expenditure.

Vice President Wilt asked how the First Catholic Slovak Union wants the property zoned. Mr. Gladstone explained that after looking at the zoning ordinance, they felt it was best suited for industrial big box warehouse, similar to what is near Penn State Harrisburg. With the large investment required for the ramps, there will probably be the need for someone that can come up with a private/public partnership because it will take a huge expenditure to make that happen. This is something that will probably not happen this year or next. However, the Slovak Union wants to look to the future and start the process to get the ball rolling. President Mehaffie stressed that it is important that they reach out to the community about these plans, as it is evident from driving through the community and seeing the yard signs that residents do not want to see more warehouses or truck terminals. There are not five voices up here that make a decision. The community at large will make the decision. President Mehaffie added that the Board has not taken a look at the draft comp plan yet. When it comes before the Board, it will take a hard look at it and make some determinations.

Commissioner Truntz stated his concern is who is going to pay for the infrastructure needed with trucks rolling in and out of these properties. President Wilt agreed, and reiterated that residents are not looking for mega warehouses. Mr. Gladstone agreed that this is also a concern in other communities, so it is important to see what the community will tolerate. The First Catholic Slovak Union will do its best to work on that, and will be transparent about what it plans. Mr. Gladstone stated that as far as who will pay for the infrastructure, this is not his field of expertise. There are groups of individuals that are experts in funding for such projects, and they would be contacted.

Solicitor Henninger added that the Slovak Union needs to remember that parcels 1 through 5 on the map are in the Clean and Green, with the exception of the old orphanage building. In response to a question from Solicitor Henninger about parcels 6 through 9, Mr. Gladstone stated that focus at this time is strictly on parcels 4 and 5. Mr. Gladstone stressed that as the plan develops, representatives from the First Catholic Slovak Union will be here to discuss this personally.

APPROVAL OF MINUTES:

A motion was made by Commissioner Truntz, seconded by Vice President Wilt, to approve the Minutes of the July 20, 2016 Legislative Meeting. The motion was unanimously approved.

A motion was made by Vice President Wilt, seconded by Commissioner Truntz, to approve the Minutes of the August 3, 2016 Workshop Meeting. The motion was unanimously approved.

APPROVAL OF BILLS:

A motion was made by Vice President Wilt, seconded by Commissioner Truntz, to approve the payment of bills as presented on Warrant No. 2016-07. The motion was unanimously approved.

APPROVAL OF TREASURER'S REPORT:

A motion was made by Commissioner Truntz, seconded by Vice President Wilt, to approve the Treasurer's Report for July 2016. The motion was unanimously approved.

ENGINEER'S REPORT:

Ms. Letavic updated the Board on the Richardson Road Bridge project. Contract documents have been executed by all parties. Easements for the project need to be executed for construction to proceed. A preconstruction meeting will be held tomorrow afternoon at HRG.

A pre-application meeting for the Dauphin County Infrastructure Bank (DCIB) Loan Application (2016) for the Highland Street and Summit Ridge Culverts is set with the County for August 24 at 8:30 A.M. to discuss the projects, needs, and cost estimates.

President Mehaffie asked Ms. Shambaugh the status of the easements for Richardson Road. She responded that she continues working with all three of the entities, and has stressed that the sewer ones are needed as soon as possible so that work can be started now.

Ms. Shambaugh noted that she has been assured that they will get those to her. She will make visits to the one in Mechanicsburg this week. President Mehaffie asked that Solicitor Henninger assist with this.

SOLICITOR'S REPORT: No report

MANAGER'S REPORT:

Ms. Shambaugh reported that tonight's agenda includes approval of Ordinance No. 566, which authorizes the issuance of the General Obligation Bond, Series 2016. Jay Wenger, bond counsel, explained that what is before the Board tonight is a parameters approval, which does nothing more than authorize the process and get things started as far as the credit rating process, the DCED filings, etc. It does not obligate the Township in any way. When there is a rating and the Township is ready to access the market, they will come back with a market update. If things are still on target, they will proceed with marketing the bonds and then there will be a formal commitment provided by the underwriter to purchase the bonds from the Township. This ordinance is really an authorization that allows the process to move forward. Commissioner Truntz asked if it was reviewed by the solicitor. Solicitor Henninger confirmed that he had reviewed it, and his questions were answered. This is a standard process for a refunding. A motion was made by Commissioner Truntz, seconded by Vice President Wilt, to approve Ordinance No. 566 authorizing the incurring of non-electoral debt through the issuance of the General Obligation Bond, Series 2016. A roll call vote was taken with the following ballot tabulation: Commissioner Truntz – aye, Vice President Wilt – aye, President Mehaffie – aye. Ordinance No. 566 was approved by a 3 – 0 margin. President Mehaffie thanked Mr. Wenger and his team, and asked how much the Township could expect to save. Mr. Wenger stated that it can expect to save about \$300,000, which is significant for the size of the loan.

Ms. Shambaugh reported that she had distributed to the Board the Lower Swatara Township 2016 mid-year report. This is simply an informational tool. It shows the actual costs of budget line items for years 2014 and 2015 and compares what was budgeted for 2016, where items stand as of June 30, where they are projected to be at the end of the year, and what that difference is. Ms. Shambaugh explained that it really provides the Commissioners with a snapshot to lead them into budget preparation for 2017.

Two weeks ago, the Board had extended conditional employment offers to two police officer candidates. Prior to final offers being made, these candidates must complete a series of exams. Both expect to complete the exams and provide the necessary paperwork by next week. A motion was made by Vice President Wilt, seconded by Commissioner Truntz, to conditionally

approve the hiring of Ryan Lesko and Artemus Tuisl, contingent upon the completion and successful passing of the necessary exams. The motion was unanimously approved.

Ms. Shambaugh also reported that the Township has hired a new Construction Code Official to replace Alan Knoche, who recently retired. Jact Dela Cruz started his employment with the Township this Monday, and will be concentrating his efforts on construction enforcement as well as zoning enforcement. He will not have the portion of EMA duties that Mr. Knoche had. President Mehaffie noted that Mr. Dela Cruz will also be working with the Township's MS4 Program. A motion was made by Commissioner Truntz, seconded by Vice President Wilt, to approve the hiring of Jact Dela Cruz, effective August 15, as Construction Code Official. The motion was unanimously approved.

Ms. Shambaugh added that the Board also made an offer to Frank Williamson for the Public Safety Director position. This position will be responsible for the oversight of the Police Department, the Fire Department, and coordination with the EMS. It will also include serving as Assistant Township Manager. Mr. Williamson will begin his employment with the Township on August 29. A motion was made by Commissioner Truntz, seconded by Vice President Wilt, to approve the hiring of Frank Williamson to the position of Public Safety Director/Assistant Manager. The motion was unanimously approved. President Mehaffie welcomed Mr. Williamson, who was in the audience, to his new position.

President Mehaffie read aloud the list of future meetings/events:

August 22	7 PM	Municipal Authority Meeting
August 25	7 PM	Public Meeting for review and discussion of the draft Comprehensive Plan
SEPTEMBER 5		LABOR DAY – TOWNSHIP OFFICES CLOSED
September 7	6 PM	Recreation Board Meeting
September 7	7 PM	Board of Commissioners Workshop Meeting
September 8	<b>6 PM</b>	Zoning Hearing Board (continuance)
September 21	7 PM	Board of Commissioners Legislative Meeting
September 22	7 PM	Planning Commission Meeting
September 26	7 PM	Municipal Authority Meeting

#### COMMITTEE REPORTS:

Police Committee – Vice President Wilt – reported that as mentioned earlier, the Board has hired a Public Safety Director/Assistant Manager, and has made conditional offers to two police officer candidates. President Mehaffie asked if OIC Young had anything to report. OIC Young

stated that he will be offering active shooter training to the residents on the following dates: September 13 & 20, October 6 & 24, and November 17. Training will be from 6:30 P.M. to 8:30 P.M., and will be held at the Lower Swatara Fire Department. Information regarding registering will be published in the Township newsletter. President Mehaffie asked that Ms. Arroyo also post this information on the Township website.

Public Safety Committee – Commissioner Springer -- absent

Budget & Finance – Commissioner Davies – absent. Ms. Shambaugh did add that she had met with Commissioner Truntz to discuss the mid-year budget report and about setting up a date with the Budget Committee to start the 2017 budget process.

Public Works – Commissioner Truntz -- reported that the Department is working on odds and ends, mowing, and painting crosswalks. There are some manpower shortage issues due to the part-timers resigning/going back to school and an employee off for medical reasons. The Department is doing the best it can. Ms. Shambaugh added that paving should start Monday, although it is hoped that the contractor can actually start milling Candlewycke this Friday. She noted that the paving will be one week. Notices were hand delivered to all the impacted residents on Riverview, Candlewycke, Blacklatch, and Pennsylvania regarding the dates for milling and paving, and informing them of parking restrictions during the paving. Commissioner Truntz stated that he understands the staff has received numerous calls about this inconvenience, and asked that the residents please bear with the Township, as this roadwork is something that must be done. President Mehaffie asked if the paving of Pennsylvania Avenue is a change order. Ms. Shambaugh confirmed that it is. Solicitor Henninger suggested this be addressed under New Business.

Community and Economic Development – President Mehaffie -- reported that there seems to be a lot of requests for rezoning lately. He stated that it will be interesting to see how the updated comprehensive plan looks. President Mehaffie reported that he and Vice President Wilt met with Middletown Borough, as facilitated by the County, to discuss policing in the two communities. It was a good meeting. There was a light discussion on what is needed. The Township will be looking to the new Public Safety Director for advice on what is needed in the Township's own household first. Middletown will be doing the same. President Mehaffie encouraged all municipal officials to reach out and talk to each other about any subject. Cost factors continue to go up, and it is good to see how others are able to manage these. During this police meeting, a

lot of time was spent just discussing various municipal issues. President Mehaffie noted that Borough Manager Ken Klinepeter was in attendance, Borough Council President Ben Kapenstein, and the two labor attorneys. It was a very good meeting, although nothing was determined.

President Mehaffie asked if there had been a solution decided at Monday's meeting for the Wood Street water issue. Ms. Shambaugh explained that four options had been discussed, but a fifth option was discussed while on-site and it was felt to be the best solution. It is being recommended that the existing opening in the fence be moved down three sections to the right. This will close off the direct access for the water that is currently escaping through that opening and sheeting across that street and then flowing directly into the neighbors' front yards. A subtle berm will be constructed on the north side, which is the inside of the existing fence that is up, approximately 6" to 12" in height the entire way down to where the new opening is. This will direct the water down towards the opening and away from the area that it is going now. The east side of the field above will be top dressed with top soil and reseeded around the end of the soccer field which will create a subtle directional swale near the existing fence opening so that the water can follow the berm down to the new opening. Then at the new opening of the fence, a 2' – 3' area will be filled with R5 stone between the new opening and the street. This will allow the water to dissipate as it enters out of the berm. The desire is for the water to sheet flow to the paved edge of Dauphin Street from the berm and ultimately flow into the swale on the west side of Dauphin Street. President Mehaffie asked if there is any problem with the crosswalk, or if there is a pedestrian sign needed. Ms. Letavic stated that she does not feel this is necessary, since the existing pattern will not change a lot. The Township will need to monitor whether or not it needs to put in another cross pipe to get that drainage into the swale that follows. President Mehaffie explained that he was referring to walking traffic. Ms. Letavic stated that the Township could stripe it, but the problem is that there is nowhere across the street for the students/pedestrians to go. Basically, they are following along the fence to get back and forth. She agreed there is no well-defined path. President Mehaffie suggested that staff look into this.

#### UNFINISHED BUSINESS:

The Board tabled the Final Land Development Plan of Residential Retirement Community, Phase 1, File #2007-14, located along Fulling Mill Road at the intersection of

Nissley Drive, prepared by Navarro & Wright, Inc. and submitted by Fulling Road LLC. The plan was recommended for approval by the Planning Commission on November 15, 2007 with stipulations. The plan was due to expire on February 20, 2008. 90-day time extensions were granted by the Board on February 20, 2008, May 21, 2008, August 20, 2008, November 19, 2008, February 18, 2009, May 20, 2009, August 19, 2009, November 18, 2009, February 17, 2010, May 19, 2010, August 18, 2010, November 17, 2010, February 16, 2011, May 18, 2011, August 17, 2011, October 19, 2011, January 18, 2012, April 18, 2012, July 18, 2012, October 17, 2012, January 16, 2013, April 17, 2013, July 17, 2013, October 16, 2013, December 18, 2013, March 19, 2014, June 18, 2014, October 1, 2014, December 17, 2014, March 18, 2015, July 1, 2015, October 7, 2015, January 20, 2016, April 20, 2016, and July 20, 2016. The plan is due to expire on October 19, 2016.

A motion was made by Commissioner Truntz, seconded by Vice President Wilt, to grant a time extension until November 16, 2016, at the request of the developer, on the Final Land Development Plan for Middletown Home Access Driveway/Parking Revisions, prepared by Schlouch, Inc. and submitted by the Middletown Home. The initial plan submitted was due to expire on May 29, 2013. Time extensions were granted by the Board of Commissioners on May 15, 2013, August 21, 2013, November 20, 2013, February 19, 2014, May 21, 2015, October 15, 2015, January 21, 2015, May 18, 2015, August 19, 2015, and November 18, 2015, February 17, 2016, and May 18, 2016. The plan is due to expire on August 17, 2016. The motion to grant the time extension was unanimously approved.

The Board tabled the Final Subdivision Plan for William's Manor, File #2016-01, a 26 lot subdivision located along Lumber Street for Rhodes Development Group, Inc., submitted by R.J. Fisher Engineering & Assoc., Inc. The plan was recommended for approval by the Planning Commission on April 28, 2016 with conditions. The plan was due to expire July 27, 2016. The Board granted a time extension on July 20, 2016; the plan is due to expire on October 20, 2016.

#### NEW BUSINESS:

A motion was made by Vice President Wilt, seconded by Commissioner Truntz, to approve a time extension until November 16, 2016, as requested by the developer, on the Final Subdivision/Land Development Plan, File #2016-03, for Maaco of Middletown Body Shop Expansion located at 1998 W. Harrisburg Pike, submitted by Raudenbush Engineering, Inc. The

plan was recommended for approval with conditions by the Planning Commission on May 26, 2016 and is due to expire on August 17, 2016. The motion was unanimously approved.

A motion was made by Commissioner Truntz, seconded by Vice President Wilt, to approve the Improvement Guarantee Reduction, Irrevocable Standby Letter of Credit #186 for site improvements, Sidewalk, for Morgan's Run Development, File #2004-13, requesting a reduction in the amount of \$1,733.00 from the current balance of \$60,119.93 leaving a balance of \$58,386.93. The motion was unanimously approved.

A motion was made by Vice President Wilt, seconded by Commissioner Truntz, to approve the Improvement Guarantee Reduction Request #1, Escrow Account, for site construction improvements for Stoneridge Commerce Park – Lot 3, File #2013-03, in the amount of \$11,206.00 from the current amount of \$22,665.50 leaving a balance of \$11,459.50. The motion was unanimously approved.

A motion was made by Commissioner Truntz, seconded by Vice President Wilt, to approve the Improvement Guarantee Reduction Request #2, Irrevocable Standby Letter of Credit #18118703 for site improvements for PSU EAB Renovations & Addition, File #2012-03 in the amount of \$13,303.05 from the current amount of \$22,027.50, which holds a Maintenance Guarantee, in the amount of 15% of the value of the permanent improvements, of \$8,724.45 for a period of 18 months. The motion was unanimously approved.

Solicitor Henninger addressed the next item under New Business regarding taking the Swatara Greenway Partner in Stewardship Pledge with the Manada Conservancy. The Board had asked him at the last meeting to take a look at this. Since he will be meeting next week with the manager of Londonderry Township to get a little more detail, he asked that the Board defer action on this until the next meeting.

Ms. Shambaugh stated that she had one item to add under New Business. As discussed under the Public Works Committee report, there is a change order from Pennsy Supply to add the milling and paving of a portion of Pennsylvania Avenue to the existing paving contract. The Board had approved the contract at an amount not to exceed \$265,000. Within that amount were expenses for leveling course. After being on site with Pennsy, they agreed that none of the roads in question needed any leveling course although they did recommend a scratch coat on Blacklatch Lane. Even with this addition of Pennsylvania Avenue, costs will still be under the \$265,000 approved limit.

President Mehaffie asked where costs are at right now. Ms. Shambaugh responded that Pennsylvania Avenue will cost \$14,628.75. He asked what the total project costs are. Ms. Shambaugh explained that she will not have that amount until the scratch coat is done. 500 tons is estimated for that, which would make the total project cost close to the \$245,000 range. A motion was made by Commissioner Truntz, seconded by Vice President Wilt, to accept Change Order #1 to Pennsy Supply for the 2016 Lower Swatara Township Paving Project, in the amount of \$14,628.75, to add the paving of a portion of Pennsylvania Avenue. The motion was unanimously approved.

#### FINAL COMMENTS:

Ms. Vajda stated that she had seen the concept of “agrihoods” on television. This is basically a neighborhood centered around a working farm. There are no amenities such as tennis courts or swimming pools. People seem to love the concept, as they can watch their food grow and walk over to buy it. Ms. Vajda noted that there is a lot of land in the Township that could be used for this. She added that the spread of warehouses needs to stop.

Linda Mehaffie, Middletown Area School Board member, stated that she believes that buses were given permission to use Greenfield Drive during the construction of the high school. Ms. Vajda responded that nothing personal, but that is a lame excuse since this has been going on prior to the construction. Ms. Mehaffie agreed that these concerns will be looked into.

Mr. Greene reported that the construction at the new high school is wrapping up, and it will be ready for the opening day of school. Ms. Mehaffie added that there will be an Open House for the public on October 21.

Lynda Bosnyak, Westerly Court, referenced the paving of Pennsylvania Avenue and asked if Wesley Court, which is in this same area, would also be paved. President Mehaffie explained that Pennsylvania Avenue is being paved due to being tore up from sewer and stormwater work by the Township. Ms. Bosnyak stated that Westerly Court was also tore up. President Mehaffie explained that was due from work by the water company, and asked if the water company had not completed the restoration work. Ms. Shambaugh was asked to contact the water company about this.

Commissioner Truntz welcomed Frank Williamson on board, and also stated that it was great to see new faces in the audience tonight and hear their concerns. He suggested that if there

was something that they heard here tonight that they did not like, they should encourage their friends and neighbors to come to the Board meetings and express their feelings. Commissioner Truntz stated that the Board is here to serve the residents.

Vice President Wilt also welcomed Frank Williamson to his new role and stated that he appreciates him coming tonight. He also agreed it was nice to see so many in the audience.

Solicitor Henninger noted that he was discussing with Ms. Shambaugh the need for Change Order #2 to the Pennsy paving contract due to the reduction. He also welcomed Mr. Williamson on board, and stated that he is looking forward to working with him.

President Mehaffie thanked Nancy Avolese for her nice editorial in the Press and Journal, and for her attendance at all the Board meetings.

President Mehaffie requested that the Board convene in executive session immediately upon conclusion of this evening's meeting for personnel reasons.

ADJOURN AND CONVENE INTO EXECUTIVE SESSION:

Hearing no other business, a motion was made by Vice President Wilt, seconded by Commissioner Truntz, to adjourn the meeting. The motion was unanimously approved, and the meeting adjourned at 8:04 P.M.

ATTEST:

  
Jean R. Arroyo, Township Secretary
