MINUTES

LEGISLATIVE MEETING: MAY 20, 2026

The May 20, 2026, the Legislative Meeting of the Lower Swatara Township Board of Commissioners was called to order at 7:00 P.M. by President Jon G. Wilt. President Wilt called for the pledge of allegiance followed by a moment of silence.

Roll call was taken with the following officials in attendance:

- Jon G. Wilt, President
- Todd F. Truntz, Vice President
- Ronald J. Paul, Assistant Secretary
- Michael J. Davies, Commissioner
- Christopher DeHart, Commissioner
- Zachary Border, Manager
- Tracey Bechtel, Township Secretary
- Michael McAuliffe Miller, Eckert Seamans, Solicitor
- Mike Wood, HRG
- Thomas Bell Jr., Police Chief
- Rich Snyder, Planning and Zoning Coordinator

Residents and visitors in attendance: (see attached sign-in sheet)

4. PUBLIC COMMENTS:

Don Miller, 237 Shady Lane, thanked Mr. Border for contacting PennDOT regarding the trees on 441. He also wanted to thank the Board for what they have been doing in the Halkias subdivision making sure that it is done as safely as possible. He added that the Halkias property is still a dump, the barrels, weeds, plastic, and trees are still a problem. He pointed out that the township mowed his property again at the end of Stoner Drive and Shady Lane to maintain the site distances for safety, because he does not do anything.

Justin Witmer, 305 Shady Lane, seconded what Mr. Miller had just commented on.

Becky Lund, 4 Donald Avenue, noted that she has spoken to Mr. Fure several times about the situation with her neighbors behind her. They are great people, wonderful kids, truly a good family, but the bees are bad. He raises them and there are a lot of bee hives back there. She has filled out a complaint form and submitted it to Mr. Fure, she is not sure what has been done since then, but somebody is always getting stung. The bees also swarm, since the properties are so close, sometimes the swarm right at their hives but other times they swarm in the middle of her yard or in the middle of her neighbor's yard, it is a problem. They have all been stung multiple times. Her brother-in-law came to visit, and he is highly allergic so they could not be outside. Her autistic grandson is terrified to go in her backyard.

Commissioner Paul asked how long this has been going on. Ms. Lund could not recall exactly how

long ago, but she has been living there for about 15 years, she just knows it has been a very long time. Mr. Border informed the commissioners that Mr. Fure did talk with the owner of the hives, and he indicated that he has had them for about 12 years and he has 18 active hives. They are several feet off the property line. The township does not have any current regulations outside of the general conditions, like safety, which regulate beehives. The Department of Agriculture regulates only the health and registration of beehives. Mr. Fure thought maybe the township should do some kind of ordinance or something to regulate them. Mr. Border asked Solicitor Miller if he had any comment. Solicitor Miller indicated that he would discuss it further with Mr. Fure. Ms. Lund added that in the same backyard there is also a pen full of chickens and roosters, which she also reported to Mr. Fure. She has gotten to be okay with hearing the roosters at 4:15 in the morning as opposed to being swarmed by the bees.

Ms. Lund thanked the board for giving her the few minutes to speak about this situation. The Board thanked Ms. Lund for informing them.

Commissioner Truntz commented that there may not be an ordinance that addresses this, but what about the perspective of a general nuisance, something that is a dangerous condition in general terms. Solicitor Miller noted that our code may cover this issue and he will check on that with Mr. Fure.

Commissioner Paul added that while we are talking about nuisances, when he is out driving around the township, it seems like there are a lot of nuisance ordinances that have not been looked into. There are a variety of neighborhoods that are not as good as what they used to be. We have high grass growing in some places, we have sidewalks that are broken up, we should really take some time to talk about these issues and look into them further.

5. PROMOTION OF PATRICK RIBEC AS SERGEANT

A motion was made by Commissioner DeHart, seconded by Commissioner Davies to approve the promotion of Patrick Ribec as Sergeant.

6. SWEARING IN OF PATRICK RIBEC AS SERGEANT

Chief Bell introduced Sergeant Ribec, who is a 13-year veteran of the Lower Swatara Police Department. This promotion is in recognition of his service, his dedication, and his professionalism. Sergeant Ribec consistently demonstrates an exceptional work ethic and proactive approach to policing. He serves as a field training officer as well as a member of the Dauphin County Mobile Field Force. We look forward to his continued commitment to both his fellow officers which he will now formally lead and to the community which he honorably serves. Sergeant Ribec is joined tonight by his wife Laura, their children Luca and Grace. His mother, Kathleen, his mother-in-law and father-in-law, Marjie and Chet Hartz. His grandmother, Gert Ribec and his aunt, Jenny Rutter as well as his brother-in-law and sister-in-law Chris

and Staci Hartz, and their children, Elizabeth and Haley. Chief Bell congratulated Sergeant Rebic

Judge Judy stated that a year ago, he did not even know this gentleman, in fact he did not know any of them except Sergeant Young, but due to the unfortunate passing of his cousin Judge Smith, he got to know these guys pretty quickly. Now he practically sees him every morning in his office. These guys write a lot of citations, Lower Swatara Township has an excellent police department here and he thinks the township should be very proud of that.

Judge Judy swore in Sergeant Patrick Rebic and congratulated him.

7. PRESENTATION OF AWARDS

Lower Swatara Township Lions Club Presenting Lions Club Officer of the Year Award to Officer Philip Mack.

Chief Bell announced that the Officer of the Year, which will be presented by the Lower Swatara Lions Club. The criteria for the Officer of the Year Award recognize continuous, consistent, and dedicated and unselfish effort to put forth throughout the year while striving to uphold the highest traditions of the department based on dependability, productivity, performance, job knowledge, appearance, and courtesy. This year the award goes to Officer Philip Mack. Officer Mack is a five-year veteran of the Lower Swatara Police Department. Officer Mack also serves honorably as a Sergeant First Class in the United States Army Reserves. Officer Mack has deployed overseas three times. His last deployment was in October of 2024. This submission is in recognition of his exemplary service, his dedication and professionalism. Officer Mack consistently demonstrates an exceptional work ethic and proactive approach to policing. Since his return to duty, Officer Mack has conducted 634 traffic stops, which is the most of any officer in the department. During that same time period, he handled 851 calls in seminal criminal cases. It should also be noted that during this time Officer Mack has also been assigned as a field training officer, assisting with the training of three new officers. So, all this productivity while still training three different officers. Officer Mack's dedication to duty not only to Lower Swatara Township, but his service to our nation abroad is commendable and he sets a great example, not only professionally, but personally for others to follow. His continued commitment to both his community and to his country reflects a deep sense of dignity and duty.

Lion Club member Connie Easter presented Officer Mack the Officer of the Year Award on behalf of the Lower Swatara Township Lions Club.

Lower Swatara Township Police Award of Merit to Officer Heather Rogers

Chief Bell announced that the Award of Merit is to be awarded to any officer for highly intelligent and invaluable service which demonstrates special initiative and perseverance of police duties that are above and beyond the normal call of duty. Officer Heather Rogers assisted other officers investigating two

separate police pursuits where the subjects were not apprehended. Officer Rogers went above and beyond normal investigation and wrote multiple search warrants to identify the offenders. Her hard work and tenacious actions resulted in both offenders being identified and arrest warrants being issued, her dedication to duty and her willingness to give up many hours of her time investigating these matters has brought credit to herself for fellow officers through this agency. This is presented on the 20th day of May 2026. Officer Rogers husband Brian, their sons Wyatt and Caleb, as well as her in laws Sue and Steve Baumgardner are here this evening.

Chief Bell stated that he would like to say thank you to all of the officers here. He is coming up on his two-year mark of being here and it has been a joy. He stated that it is an honor to serve with all of them. The amount of work that they all do on a daily basis is commendable. Again, this past month we had the highest productivity officers in the county. Four of the five in the county were Lower Swatara Police Officers, and that is saying something as far as all of Dauphin County goes. We have a great Police Force, and he thanked the Board of Commissioners for their support in all of these matters, and he thanked these men and women who come in, work hard day in and day out. Thank you very much, it is appreciated.

8. APPROVAL OF MINUTES:

A motion was made by Vice President Truntz, seconded by Commissioner DeHart, to approve the Minutes of May 6, 2026 Workshop Meeting. The motion was unanimously approved.

9. PAYMENT OF BILLS:

A motion was made by Commissioner Davies, seconded by Commissioner Paul, to approve the Payment of Bills – Warrant No. 2026-04. The motion was unanimously approved.

10. TREASURER REPORT:

A motion was made by Commissioner Paul, seconded by Commissioner Davies, to approve the Treasurer's Report for April 2026. The motion was unanimously approved.

11. PUBLIC SAFETY REPORTS:

Police Department

Chief Bell presented the summary of the monthly statistics for April. There were 2444 total calls, 35 total cases, 16 arrests, 14 total vehicle accidents, 316 citations, 583 traffic warnings, 10,650 patrol miles driven, 476-foot patrol minutes, 361 total overtime hours and 228 training hours (non-academy hours). Co-responder stats included 2 new contacts, 6 repeat contacts, 8 follow-up contacts, and 3 mental health commitments.

Commissioner DeHart inquired about one (1) being reported in the monthly statistics for Total Part 1 Crimes under murder. Chief Bell explained that we did not have any murders, but because one of the incidents was classified as an attempted homicide, it would have classified it for UCR purposes as a homicide, even though it was not. No one was injured in that case, but if charges are brought in that shooting and arson, attempted homicide would be the charges.

Chief Bell reported that the department just started the 12-hour shifts on Saturday, seems like it is going really well. It is going to take a little bit to change their sleep patterns but all the feedback that he has gotten they are all saying the same thing, that even though the days are bit longer, there are less of them, so instead of having those long eight day stretches where they are working the max, they work three, so they are getting more rest in the long run.

Vice President Truntz commented that it was mentioned that we had the top four officers out of five in the entire county for tickets and citations. We all heard and we all get complaint about speeding throughout the township, but he thinks these numbers speak for themselves that our officers are out there and they are enforcing the speeding that is going on here in the township. He wants to make sure the Public knows that. Chief Bell added that they are doing an excellent job and definitely trying to get the traffic slowed down. They hit the same areas but again they continue to hit cars after cars that is continuing to speed. It is a slow process, but he is hopeful that we will get more compliance in time.

Commissioner DeHart asked for an update on the truck traffic on White House Lane. Chief Bell reported that they continue to hit those fairly steadily. He does not know the exact number without looking but we are in the tens of thousands of dollars in fines of vehicles that go down through there. He emphasized again that it is a slow process because it is an ever evolving and rotating situation.

Chief Bell noted in response to Vice President Truntz's question that they are ready for the airshow. They got everything worked out as far as traffic control. The fire police are the ones really taking the brunt of that this year. Again, they stepped up because to be honest, our department just does not have the officers that can do it, even amongst multiple jurisdictions. There are 21 traffic control points, so between the state police and regional fire police, they have been helping out with those issues. Chief Bell added that we will have officers on standby, because it is such a large event.

Fire Department.

Chief Taylor presented the Fire Department's monthly statistics for April. There were 52 calls in total. 28 number of responders, 5 average personnel per response, 21:16:17 time in service. 8 fire incidents; 5 hazardous situations; 1 Law enforcement support; 5 medical; 26 No emergency; 4 Public Service and 2 rescue. Mutual aid was provided to Derry Twp (1), East Hanover (1), Highspire Borough (1), Middle Paxton Twp (1), Middletown Borough (2), Monroe Twp (1), Steelton Borough (9), and Swatara Twp (12).

Chief Taylor updated the Board on the mutual aid and how they have talked over the last year about Swatara Twp and Steelton and their standout numbers. Swatara has changed their run stream, they are seeing less responses into the township, they are handling their own stuff, which is good. He reported that the engine was in, they had been driving it around, he invited the board to stop by and take a look. The target is mid-June to have it in service.

Chief Taylor noted that for the airshow they will have a presence down there. They will have personnel staffing their apparatus in the township. As discussed before, we will not be just sitting in a parking lot down on Airport Drive just to sit there, they do have dedicated crews, people have signed up to make sure that we will be on our apparatus and have a presence.

12. ENGINEERS REPORT:

Mr. Wood updated the Board on the following in addition to the monthly report: **Fiddler's Elbow Box Culvert Replacement:** Contractor did confirm receipt of payment application number two from the county, and they returned to site promptly on May 14th to resume work. They are preparing the protective deck on the culvert top for application. HRG is anticipating them to be on track with final completion since we did pass the substantial completion of May 15. Mr. Wood indicated that the contractor had reached out to him today to let him know that they are anticipating on being on site tomorrow to install curb walls and the drainage inlet **2024 CIP Stormwater Improvement Project:** Shop drawing submissions are still ongoing and renewal submittals , they are prioritizing the review of the precast structures due to those longer fabrication times. The Contractor did let HRG know that door knocker notices for Lakeside Drive have been reviewed and we returned them with comments to the contractor. **Salt Shed Improvements: Coordination** still ongoing between the township, HRG and the contractor regarding structural design following the discussions we had with the township solicitor. Township opted to have Timber Tech revise the design to keep that new structure adjacent to the existing building that required foundation modifications. Mr. Burkholder reached out to Timber Tech to let them know what we were looking for to keep the building adjacent and to revise the foundation details accordingly. HRG received those plans on Monday May 18th and were able to review them and get any comments back to the township. The intent now is to receive the certified plans from Timber Tech and issue the work change directive to incorporate the revisions and adjust contract times and if there are any price adjustments as needed. **Multi-modal Transportation Funding:** Design efforts are still ongoing as the township continues to coordinate right-of -way acquisition for the little section of slope that is going to be there on the south side. **Municipal Bond Stormwater Project:** Sub consultants are continuing their subsurface utility work. The test holes preparation should be finalized, and they are going to be getting us their deliverables so we can incorporate them into our survey base mapping so we can continue with that design.

Mr. Wood added that Horst Excavating has reported today that the divider nets were installed for the pickleball courts.

Vice President Truntz asked if there were any updates on the softball fields? Mr. Border indicated that he does have a price of $109,000 per field, which includes them doing all the work. Mr. Wood reported that HRG is continuing coordination internally as well to determine what is going on and to get a final game plan together. President Wilt commented that whoever installed the fields should be responsible for it because we paid to have it done and even though there may be different standards, it does not sound like it meets any of them. Vice President Truntz added that we paid for a playable softball field, he understands if the turf is not perfect, but major things like grading and leveling should be correct. Mr. Border noted that it was his understanding from when the township met with the gentlemen from Hummer, he indicated that the contactor followed what the spec were and that the grading was not correct. It was a 2% grade, and the contractor is saying it should have been a less grade than that. It was noted that HRG did the specs. Mr. Border indicated that he is getting more prices.

13. MANAGER'S REPORT:

2026 Paving and crack sealing

Mr. Border updated the Board on some of the paving and crack sealing projects going on. Mr. Washinger plans to rent a crack sealer, he wants to do Powderhorn, Longview, and seal as many curbs lines as he can. The cost to rent plus the materials for the crack sealer is around $5,500. Paving Planned for this year is Woodridge Dr, Delmont, Brunswick, Edinburgh, and Ormiston. He also wants to do some base repairs on Hollywood Dr in preparation to fix it to pave in 2027. He noted that the corrugated pipe under Woodridge Dr will have to be replaced before paving because the whole bottom of the pipe is gone. The timeline is to bid it out in the middle of June, starting the work in July.

Mr. Border reported that we are working with Highspire so when they do their paving project it meets up with our paving there under the highway on Lumber St.

Highspire Agreement

Mr. Border reported that everyone approved the Agreement, we just need to get all the signatures.

Capital Campus

Mr. Border indicated that a walkthrough was conducted on Tuesday, Mr. Burkholder informed him that they have some punch list items to finish but besides that the project is done. No contamination was found.

Private Street Ordinance

Mr. Border noted the Solicitor's draft copy of the private street ordinance included in the Board packets for their review. If the Board would like to move forward, they can put that on the next agenda to

advertise. The Board agreed to include on the next agenda for advertisement.

14. FUTURE MEETINGS/EVENTS:

June 3, 2026	7 PM	Board of Commissioners Workshop Meeting
June 15, 2026	2 PM	Civil Service Commission
June 17, 2026	7 PM	Board of Commissioners Legislative Meeting
June 22, 2026	7 PM	Municipal Authority Meeting
June 24, 2026	7 PM	Zoning Hearing Board
June 25, 2026	7 PM	Planning Commission Meeting

15. COMMITTEE REPORTS:

Public Safety Committee: Commissioner Paul commented as he said before, he thinks we need to get together on some of the local ordinances that we have that we are not spending due diligence with. He understands that the code department is extremely busy but there are things that need to be addressed.

Budget and Finance: Commissioner Davies – No Report.

Public Works Committee: Vice President Truntz reported the men sprayed the parks with herbicides, cleared a storm drainpipe over at Little Hollywood. They are addressing a minor sinkhole on Hanover Street, and they are doing a lot of right of way and other mowing.

Community Development: Commissioner DeHart – No Report.

Personnel Committee: President Wilt – Nothing to report except for the promotion of patrolman to sergeant that took place earlier this evening.

16. UNFINISHED BUSINESS:

A. Waiver Request from Section 22-403.1. A(2)-Plan Sze for PC#2025-08 Halkias Minor Subdivision Plan.

B. Waiver Request from Section 22-404 Preliminary Plat Specifications for PC#2025-08 Halkias Minor Subdivision Plan.

C. Waiver Request from Section 22-403.A(2)-Plat Scale for PC#2025-08 Halkias Minor Subdivision Plan.

D. Deferral Request from Section 22-606-Provide Curbs for PC#2025-08 Halkias Minor Subdivision Plan.

E. Deferral Request from Section 22-607-Provide Sidewalks for PC#2025-08 Halkias Minor Subdivision Plan.

F. Deferral Request from Section 22-508.A(1)-Tree Preservation for PC#2025-08 Halkias Minor Subdivision Plan.

G. The Final Minor Subdivision Plan for PC#2025-08 Halkias Minor Subdivision Plan.

President Wilt asked the Board members if there was any discussion on anything first or if they want to do each item individually and discuss at that time. Commissioner Paul commented that he is okay with most of the waivers. The only thing that concerns him now that the driveways are coming out on Stoner where they should have been in the first place, Stoner is a narrow road and at the very minimum, when you are dealing with a developer, their responsibility is to make some improvements for the public roads. In this particular case, there is nothing generated, nothing indicated that anything is going to be done there. There is a deferral request before us about the curbing and in lieu of curbing Commissioner Paul thinks something needs to be done on the shoulder of Stoner Dr.

Commissioner Paul asked if the planning commission was okay with all these waivers? Mr. Snyder noted that the Planning Commission recommended approval of the waivers and the deferrals as they are stated. Commissioner Paul added that his only question would be on D, on the curbing.

Commissioner DeHart inquired about the original Lot 1, which had the house up near the top and the filter field up top. Now the house is down on Stoner, but the filter field is still up top. That elevation is like 40 feet; do you have a grinder pump in there? Chris Hinkle of Burget and Associates, explained that almost every system today is a sand mound, so it is elevated and it is all pressurized so that is nothing out of the ordinary.

Mr. Snyder reminded the Board that the plan designer has shown these as approximate locations of driveways, houses, and improvements. The overall gist of this plan is for the subdivision of three lots from one parent tract. They do have appropriate notations on sheet one indicating that if in the future there is going to be proposed improvement on any one of the three lots, that they will present appropriate zoning, building, stormwater plan, and application. They have a note on sheet one that indicates that they will have an appropriate on-lot septic permit reviewed, approved, and issued by the township sewage enforcement officer. They have a note on sheet one, indicating that the driveway for lot three would have to have a highway occupancy permit reviewed, approved and issued by PennDOT prior to putting the driveway in. They also have the same note on sheet one, indicating that the proposed driveway locations for reconfigured Lot 1 and Lot 2 will have to be a street cut permit and that will have to be reviewed, approved and issued by the township before they can make any improvements to any one of these three lots. Commissioner DeHart commented that it will not be these guys making the improvements, it will be the person who buys the lot and they will be the ones to get dumped on. Commissioner Paul agreed with Commissioner DeHart that the problem is we are not dealing with a normal situation here. Each one of these people, three different people buy these lots, are they going to have to submit a land development plan? Mr. Snyder stated that they will have to submit a site plan and a stormwater plan to make any of

their improvements. Solicitor Miller thought they would ultimately have to make a land development plan, Commissioner Paul agreed simply because there could be frontage improvements we would require. Three different people buying this piece of pie, that piece of pie, it is not going to work, some coordination needs to be done here with the land development plan aspect of things.

After further discussion, Solicitor Miller stated that there is a motion on the floor to approve Item 16. A, B, C, E, and F as stated on the agenda and table Item 16. D and G.

A motion was made by Vice President Truntz, seconded by Commissioner Paul to approve Item 16. A, B, C, E and F as stated on the agenda. The motion was unanimously approved.

A motion was made by Commissioner DeHart, seconded by Commissioner Paul to table Item 16. D and G. The motion was unanimously approved.

17. NEW BUSINESS:

A. $83,333.33 monthly transfer from the General Fund to the Capital Reserve Fund

A motion was made by Commissioner DeHart, seconded by Commissioner Davies to approve the $83,333.33 monthly transfer from the General Fund to the Capital Reserve Fund. The motion was unanimously approved.

B. Resolution No. 2026-R-14-Authorizing staff to apply for STMP Phase 2 Funding

A motion was made by Commissioner DeHart, seconded by Commissioner Davies to approve Resolution No. 2026-R-14-authorizing staff to apply for STMP Phase 2 Funding. The motion was unanimously approved.

C. Budget software 3-year subscription agreement with Synario conditioned that STMP Phase 2 funding is approved

A motion was made by Vice President Truntz, seconded by Commissioner Davies to approve the budget software 3-year subscription agreement with Synario subject to the final approval of the agreement by the Solicitor. The motion was unanimously approved.

D. Entering into a Development and Financial Security Agreement with Core5 at Steelton, LLC for PC# 2024-02 Steelton Terminal

A motion was made by Commissioner DeHart, seconded by Commissioner Davies to approve entering into a Development and Financial Security Agreement with Core5 at Steelton, LLC for PC# 2024-02 Steelton Terminal. The motion carried (4-0) with Vice President Truntz abstaining.

E. Waiver Request from Section 22-403.1.A(2)-Plan Size for PC# 2025-03 Palomba LDP (29 Wayne Ave)

F. Waiver Request from Section 22-404-Requirement to Submit a Preliminary Plan for PC# 2025-03 Palomba LDP (29 Wayne Ave)

G. Waiver Request from Section 22-502.8-Driveway Sight Distance for PC# 2025-03 Palomba LDP (29 Wayne Ave)

H. Deferral Request from Section 22-606-Curbing for PC# 2025-03 Palomba LDP (29 Wayne Ave)

I. Deferral Request from Section 22-607-Sidewalk for PC# 2025-03 Palomba LDP (29 Wayne Ave)

J. Revised Plan Final Subdivision Plan for PC# 2025-03 Palomba LDP (29 Wayne Ave)

Commissioner Paul commented that the only worry he has with the plan is Eshelman Street goes right in the center of this property. Where the structure is going to be put on the lot and the driveway, it looks like it is an extension of Eshelman Street. That curve is not good, he thinks there needs to be some kind of protection there for the motoring public, so they do not go straight and they need to make that bend because that is only a 10-foot-wide right-of-way there. Mr. Hockenberry asked if a left turn sign would work? Commissioner Paul stated that it needs to be more than a left turn sign. He feels there needs to be some kind of visual obstruction to make sure that you cannot go that way, whether that is curbing or shifting the driveway down a little, he does not have the answer but foresees a problem. Mr. Hockenberry responded that he is open to any suggestions the township engineers have. After a brief discussion, Mr. Wood indicated that HRG could explore options and work with Mr. Border and Mr. Snyder.

A motion was made by Vice President Truntz, seconded by President Wilt to approve Item 17. E, F, H, I and J as stated in the agenda. The motion was unanimously approved.

A motion was made by Vice President Truntz, seconded by Commissioner Paul to approve Item 17. G. Waiver Request from Section 22-502.8-Driveway Sight Distance conditioned upon the applicant working with staff and HRG to provide appropriate signage and possible redesign for PC# 2025-03 Palomba LDP. The motion was unanimously approved.

K. Resignation of Jerome Buggy from the Civil Service Commission as of June 1, 2026

A motion was made by Vice President Truntz, seconded by Commissioner DeHart to approve the resignation of Jerome Buggy from the Civil Service Commission as of June 1, 2026. The motion was unanimously approved.

L Appointment of alternate Joe Hile to the Civil Service Commission as of June 1, 2026

A motion was made by Commissioner Paul, seconded by Commissioner Davies to approve the appointment of alternate Joe Hile to the Civil Service Commission as of June 1, 2026. The motion was unanimously approved.

18. GOOD AND WELFARE:

Commissioner DeHart commented that there was a good showing this evening and is hoping the 12-hour shift is working out well for everyone and it is good that the public is seeing them out there every day.

Commissioner Davies congratulated the officers who were promoted and recognized for their service.

Commissioner Paul wished everyone a good evening.

Vice President Truntz congratulated Sergeant Rebic and officers Mack and Rogers for their awards and thanked them and the entire department for their service. Vice President Truntz also requested an executive session for both personnel and legal matters.

President Wilt thanked everyone for coming out. He thanked the Chief for the presentations this evening, well deserved to all. He is glad to hear that the 12-hour shifts seem to be working.

ADJOURN AND CONVENE INTO EXECUTIVE SESSION:

Hearing no other comments, a motion was made by Commissioner DeHart seconded by Commissioner Paul, to adjourn the meeting and convene into executive session. The meeting was adjourned at 8:14 P.M.
